

IBRAHEEM MARIAM

Lagos, NGA | P: +2349012265651 |ibraheemmaryam26@gmail.com | [LinkedIn](#)

Professional Summary

Experienced tech enthusiast with proficiency in frontend, backend, and cloud engineering. Skilled in creating responsive interfaces using HTML, CSS, and JavaScript, and proficient in developing scalable server-side architectures with languages like Python and Node.js. Recent focus on cloud engineering includes hands-on experience with Google Cloud. Adaptable and collaborative, I bring a versatile skill set to drive innovation in dynamic technical environments.

EDUCATION

LAGOS STATE UNIVERSITY

BSc. Electronic and Computer Engineering

Lagos, NGA

2018-2023

WORK EXPERIENCE

Leatherback Finance

Devops Engineer

Lagos, NGA

Jan 2024 – Till Date

- Contributed to CI/CD pipeline implementation, automating build and deployment processes for increased development efficiency.
- Collaborated on infrastructure security, implementing compliance checks aligned with fintech industry standards.
- Managed and optimised cloud infrastructure on Google Cloud, gaining hands-on experience in resource provisioning and monitoring.
- Supported day-to-day operations, contributing to incident response and routine maintenance tasks, enhancing system reliability.

Leatherback Finance

Backend Engineer

Lagos, NGA

Jan 2023 – Dec 2023

- Engineered scalable backend systems using Node.js, contributing to efficient data processing.
- Collaborated on API development, ensuring robust and responsive server-side functionality.
- Maintained and optimised backend codebase, enhancing performance and reliability.
- Worked on database design and management, utilising Node.js for seamless integration and data handling.

VOLUNTEERING EXPERIENCE

TECH WOMEN NIGERIA

Mentee/Fellow

Remote

March 2022 – Till date

- Served as one of ten mentees in the TechWomen Nigeria 2022 mentorship program, fostering collaborative learning and skill development.
- Led a winning team that secured 1 million Naira through an innovative pitch, earning recognition and subsequent selection as a TechWomen Fellow.

LEADERSHIP EXPERIENCE

CAPACITY BUILDING COURSE – Project Coordinator

Mar 2022

- I facilitated a Frontend Development Training for 40 Undergraduates to expose them to Frontend Engineering and equip them for employment

ADDITIONAL

Technical Skills: JavaScript (Node.js), Python, HTML5, CSS3, React.js, Express.js, MongoDB, MySQL, Google Cloud Platform, CI/CD, Docker, Kubernetes, Jenkins, Git, GitHub, Terraform, RESTful APIs, Linux (Ubuntu), Shell Scripting, Data Structures, Algorithms.

Other Skills: Effective communication and Critical Thinking

Interests: Engineering; Augmented Reality
